

## *PRO QR Powder* has a new name – **BioSeal CVC Powder**.

While the name may be different, BioSeal is the same powder technology that you have come to depend on to create an occlusive seal to keep access sites dry and intact.

NOW

### Item Numbers:

LP606 - 6 Applications per Box

LP636 - 24 Applications per Case

**Item numbers, case dimensions and pricing for the product remain the same.**

Product components and packaging have changed to make product application easier for clinicians. One application of BioSeal CVC contains:

- An improved bottle – easier to pour, with the same amount of powder as our previous product offering
- A Powder Containment Device (PCD) to aid in powder application
- Patient Discharge Instructions

For questions about BioSeal CVC Powder, please call Biolife at 800-722-7559 or visit [www.biosealcvc.com](http://www.biosealcvc.com).
